**Subject:** preliminary MIDAZ Quants

The midazolam samples ran overnight last night. The results are preliminary – QC is good (!06% and 103% recovery), but there is a carryover peak in the blanks that is mostly insignificant except following higher concentration samples...

Sample ID #	Midazolam (mg/mL)
[REDACTED]	0.46
	1.9
	3.08
	0.28
	0.27
	2.42
	5.48
	5.66
	5.44
	5.45
	5.26

These results are not for reporting. Passing the data to Julie.

Jill
